

SouthPoints #3 2010 Results:

SouthPoints Regatta #3 was held in North Lake in Hollywood, FL on 11-19-10. Breeze was out of the east at 8-10 knots with a drop to 4-6 knots during the late afternoon. 16 teams participated including 3 jv teams.

The Holland Park observation tower was put to good use watching the competition.

Although the park was under construction we managed to walk around the areas in use and conduct the event. Thanks to all of the teams who brought their 420's to use and to all of the regatta organizers and volunteers.

Despite the construction and other challenges we had a good event with 24 races. I would particularly like to commend Tom Lihan for excellent course set up and adjustment. I particularly admired the decision to have a windward-leeward course for the first race then a windward, leeward-windward for the second because the beach where the boats were exchanged was upwind. This kept things moving.

We chose to allow a single 360 to serve as penalty for any rule transgression but there were several protests anyway. One was allowed in which 2 boats were disqualified for violation of the 3 boat length bouy room rule.

Racing was very close as you can see from the scores. Congratulations to the winners and all competitors.
